The scenes set in 1912, i.e. the whole movie except the present-day scenes and the opening and ending credits, have a total length of two hours and forty minutes, the exact time it took for Titanic to sink. Also, the collision with the iceberg reportedly lasted 37 seconds, which is how long the collision scene is in the movie.

[Titanic \(1997\) - Trivia - IMDb](#)

The script originally had no back story about Robert, so Denzel Washington contributed much to the character's background and back story, including McCall having obsessive-compulsive disorder (OCD). In addition to his daily physical and fight training before filming, Washington met and interviewed several real-life OCD sufferers in order to gain insights on how to play that disorder correctly.
