D Dimer Testing New Clsi Guidelines -
cable.vanhensy.com

D Dimer Testing New Clsi Venous thromboembolism (VTE) refers to disease states that include both deep venous thrombosis (DVT) and pulmonary embolism (PE). All the guidelines for VTE diagnosis agree that the diagnosis can be based on pretest probability and D-dimer testing for patients with a sufficiently low probability of VTE [1, 2]:

[D Dimer Testing New Clsi Guidelines - oudeleijoever.nl](#)

D-dimer testing is used as an aid in the diagnosis of venous thromboembolism (VTE), and D-dimer testing is widely accepted as the first-step test in the management of patients with suspected VTE. The clinical problem is

File Type PDF D Dimer Testing New Clsi Guidelines

that the proportion of patients with a suspicion of VTE in whom the diagnosis is confirmed is low.

The clinical use of a D-dimer assay - acute care testing

The Clinical and Laboratory Standards Institute (CLSI) has published 'Quantitative D-dimer for the Exclusion of Venous Thromboembolic Disease; Approved Guideline (H59-A)' This provides guidance regarding the use of the D-dimer assay for the exclusion of venous thromboembolism (VTE).

CLSI publishes quantitative D-dimer guidance
| Laboratory Talk

VIDAS D-DIMER EXCLUSION II provides confident exclusion of PE or DVT with a single test. With an exclusion strategy, ED physicians rely on D-dimer tests to rule out PE and DVT. When used in conjunction with a clinical Pre-Test Probability model (PTP), VIDAS D-DIMER EXCLUSION II allows physicians to exclude deep vein thrombosis (DVT) and pulmonary embolism (PE) when a negative result is obtained.

VIDAS® D-DIMER EXCLUSION™ II | bioMérieux

File Type PDF D Dimer Testing New Clsi Guidelines

VIDAS ® D-Dimer Exclusion™ II is an automated test for the immunoenzymatic determination of fibrin degradation products in human plasma. Combined with pretest probability (PTP) scores, it can safely be used to exclude both PE and DVT in suspected patients attending the emergency department (ED) with common symptoms such as chest pain and dyspnea 1 .
