Duncan Fry Archives - ProSoundWeb
Live sound mixing is a bit different than studio mixing. It's all happening in the now and there's no undo or a chance to do another take. It's more stressful but at the same time can be very rewarding if everything works out. Things will inevitably go wrong at one of your gigs but maybe some of these live sound tips might help you out.

Live Sound Mixing - Duncan R Fry - 9780646112350
Webmaster Duncan Fry, with his Richard Petty Blue moneybox (1970 Plymouth Roadrunner Superbird 440 4 barrel). Fuel consumption means it can be driven to and from the nearest petrol station only. Author of the best-selling "LIVE SOUND MIXING" book.

Road stories and observations of the Australian Music Industry taken from a collection of articles from the author's 'No Ton column age in several 'Connections' books. The author spent many years on the road as a musician, sound engineer and a director of ARX systems and is author of the audio textbook, 'Live Sound Mixing'.

(Book), Step behind the wheels of steel and into the world of professional DJs. The World of DJs and the Turntable Culture is the only book that clearly and thoroughly teaches the tools, technologies and techniques of contemporary DJing. It also goes further, exploring the culture, history and aesthetics of hip-hop, dance music and turntablism. Souvignier traces the turntable's evolution from consumer playback device into a professional musical instrument, right up to the latest CD scratching decks. He also traces the evolution of the DJ from selector and record announcer to producer/performer. This book features exclusive interviews with GrandWizzard Theodore (the inventor of scratching) and other superstars including DJ Qbert, Rob Swift (X-ecutioners), Armand Van Helden and mash-up maven The Freelance Hellraiser. The wide ranging topics covered include a mechanical history of turntables and a DJ technology roundup; Alan Freed, Dick Clark and payola; John Cage's Cartridge Music; Grandmaster Flash; Jamaican sound systems; the rise and fall of disco; house, techno and garage music; a dictionary of scratches; and developing DJ skills. The World of DJs and the Turntable Culture includes hands-on chapters that explain the basic tools DJs use, teaches the fundamental techniques, and explores the creative possibilities for DJs. There is a special focus on state-of-the-art gear, spotlighting the most exciting, cutting-edge features.

(Book), This up-to-date book comprehensively covers all aspects of speech and music sound reinforcement. It is roughly divided into four sections: Section 1 provides the tutorial fundamentals that all audio engineers will need, discussing subjects such as fundamentals of acoustics, psychoacoustics, basic electrical theory and digital processing. Section 2 deals with the fundamental classes of hardware that the modern engineer will use, such as loudspeaker systems and components, microphones, mixers, amplifiers and signal processors. Special attention is given to digital techniques for system control and to audio signal analysis. Section 3 deals with the basics of system design, from concept to final realization. It covers topics such as basic system type and speech intelligibility, site survey, user needs analysis and project management. Section 4 discusses individual design areas, such as sports facilities, large-scale tour sound systems, high-level music playback, systems for the theater, religious facilities, and other meeting spaces. The book is written in an accessible style, but does not lack for ample amounts of technical information. It is truly a book for the 21st century! The Senior Director of Product Development and Application for JBL Professional, John Eargle is the author of The Handbook of Recording Engineering, The Microphone Book, Handbook of Sound System Design, Electroacoustical Reference Data, Music, Sound and Technology and The Loudspeaker Handbook . A 2000 Grammy Award-winner for Best Classical Engineering, Mr. Eargle is an honorary member and past national president of the Audio Engineering Society, a faculty-member of the Aspen Audio Recording Institute, and a member of the National Academy of Recording Arts and Sciences and the Academy of Motion Picture Arts and Sciences.
