= $18 + y$ and $OC = 16 + x$ and substitute in the above to obtain the first equation in x and y .

Geometry Problems with Answers and Solutions - Grade 10

Geometry is a branch of mathematics which, as the name suggests, combines abstract algebra, especially commutative algebra, with geometry. It can be seen as the study of solution sets of systems of polynomials. When there is more than one variable, geometric considerations enter and are important to understand the phenomenon.
