Provides alphabetically arranged entries on the people, issues, and events of the European Renaissance and Reformation, as well as individual entries on each country.

Offers a brief overview of medieval Europe, discusses the Renaissance's influence on the Reformation, and looks at the lives and accomplishments of Luther, Wycliffe, Zwingli, and Calvin

Humanists and Reformers portrays in a single, expansive volume two great traditions in human history: the Italian Renaissance and the age of the Reformation. Bard Thompson provides a fascinating survey of these important historical periods under pressure of their own cultural, social, and spiritual experiences, exploring the bonds that held Humanists and Reformers together and the estrangements that drove them apart. In the section of the book devoted to the Italian Renaissance, an opening historiography is followed by accounts of the struggles that underlay the Renaissance, the Renaissance papacy and the rebuilding of Rome, the growth of capitalism, and the rise of the monarchies and the city states. Separate histories of Venice, Milan, and Florence are provided, with special attention given to the Florentine humanists. Painters, sculptors, and architects of the Quattrocento and Cinquecento are also given full scope, including close-ups of Michelangelo and Raphael. Finally, the decline of the Renaissance in Italy is discussed as well as the voyages of discovery. The section devoted to the age of the Reformation includes detailed coverage of Erasmus and the major figures of the Northern Renaissance. It also extensively covers the Reformers and their thought: Luther, Zwingli, the Anabaptists and the left wing of the Reformation, Calvin, and the Counter-Reformation. The complex history of the Tudors to 1558 and the reign of Elizabeth I occupy the last large sections of the book. Throughout this volume Thompson gives special attention to subjects of note from both periods in engaging excursions: Castiglione's Book of the Courtier, the emergence of printing, Andrea Mantegna, Titian and the Venetian painters, Leonardo da Vinci, Giannozzo Manetti, Benozzo Gozzoli's Procession of the Magi, Raphael's Vatican Stanze, Michelangelo's Medici tombs, art and poetry in early sixteenth-century France, Zwingli's thought, St. Peter's Basilica, and Foxe's Book of Martyrs.

Includes bibliographical references (p. 152-156) and index.

Historian, philosopher, critic, playwright, journalist, and actor, Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars. His masterpiece, A Cultural History of the Modern Age, demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization. Following a brilliant opening essay on cultural history and why it should be studied, the first volume begins with an analysis of the transformation of the Medieval mind as it evolved from the Black Death to the Thirty Years War. The emphasis is on the spiritual and cultural vortex of civilization, but Friedell never forgets the European roots in pestilence, death, and

Read Book Renaissance And Reformation Section 1 Quiz Answers

superstition that animate a contrary drive toward reason, refinement, intellectual curiosity, and scientific knowledge. While these values reached their apogee during the Renaissance, Friedell shows that each cultural victory is precarious, and Europe was always in danger of slipping back into barbarism. Friedell's historical vision embraces the whole of Western culture and its development. It is a consistent probing for the divine in the world's course and is, therefore, theology; it is research into the basic forces of the human soul and is, therefore, psychology; it is the most illuminating presentation of the forms of state and society and, therefore, is politics; the most varied collection of all art-creations and is, therefore, aesthetics. Thomas Mann regarded Friedell as one of the great stylists in the German language. Like the works of the great novelist, *A Cultural History of the Modern Age* offers a dramatic history of the last six centuries, showing the driving forces of each age. The new introduction provides a fascinating biographical sketch of Friedell and his cultural milieu and analyzes his place in intellectual history.

This book presents a revisionist examination of the development of European intellectual culture between the high middle ages and 1550. It draws particular attention to the roles of Marsilio Ficino and Erasmus and analyzes major aspects of the work of Aquinas, Soctus, and Ockham, before moving on to Petrarch, Valla, Pico della Mirandola, the *devotio moderna*, More, Luther, Calvin, and their contemporaries. It establishes radically new perspectives on the Renaissance and the Reformation and on the continuity between them. "It is an important work and sets forth new constructs about Renaissance and Reformation that must be considered."--Marion Leathers Kuntz, *American Historical Review* "[Levi's] skillfully navigated intellectual journey is a tour de force."--Choice "A refreshingly broad vision of the period."--Times Literary Supplement "A massive and learned work. . . . [A] great wealth of learning."--History: Reviews of New Books

A riveting account of the Saint Bartholomew's Day Massacre, its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France's sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France's civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict — including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings — to enable students to explore the massacre, the nature of church-state relations, the moral responsibility of secular and religious authorities, and the origins and consequences of religious persecution and intolerance in this period. Useful pedagogic aids include headnotes and gloss notes to the documents, a list of major figures, a chronology of key events, questions for consideration, a selected bibliography, and an index.

Read Book Renaissance And Reformation Section 1 Quiz Answers

Discusses the Renaissance and Reformation from the late fourteenth through the early seventeenth centuries, explaining how the period's artistic and scientific innovations changed the Western world.

The dawn of humanism in the Renaissance presented privileged women with great opportunities for personal and intellectual growth. Sexual and social roles still determined the extent to which a woman could pursue education and intellectual accomplishment, but it was possible through the composition of poetry or prose to temporarily offset hierarchies of gender, to become equal to men in the act of creation. Edited by Katharina M. Wilson, this anthology introduces the works of twenty-five women writers of the Renaissance and Reformation, among them Marie Dentière, a Swiss evangelical reformer whose writings were so successful they were banned during her lifetime; Gaspara Stampa, a cultivated courtesan of Venetian aristocratic circles who wrote lyric poetry that has earned her comparisons to Michelangelo and Tasso; Hélienne de Crenne, a French aristocrat who embodied the true spirit of the Renaissance feminist, writing both as novelist and as champion of her sex; Helene Kottanner, Austrian chambermaid to Queen Elizabeth of Hungary whose memoirs recall her daring theft of the Holy Crown of Saint Stephen for her esteemed mistress; and Lady Mary Sidney Wroth, the first Englishwoman known to write a full-length work of fiction and compose a significant body of secular poetry. Offering a seldom seen counterpoint to literature written by men, *Women Writers of the Renaissance and Reformation* presents prose and poetry that have never before appeared in English, as well as writings that have rarely been available to the nonspecialist. The women whose writings are included here are united by a keen awareness of the social limitations placed upon their creative potential, of the strained relationship between their gender and their work. This concern invests their writings with a distinctive voice--one that carries the echoes of a male aesthetic while boldly declaring battle against it.
