organizational psychology, organizational strategy, marketing, operations, technology, transformation, and sustainability across all industries and geographies.

## The Intangible Economy – Consulting Services – The ...

Executive Summary The modern economy is increasingly driven by intangible assets, such as intellectual property, brands, and networks. However, common measures of value have failed to adapt to this transformation. The path forward involves both accounting reform and improved methods to directly value intangible assets.

## Investing in the Intangible Economy - Sparkline Capital

Reviewing Haskel and Westalke's book, Martin Wolf, referring to

the four features of intangible assets that the authors identify argues that, taken together, they subvert the familiar functioning of a competitive market economy, most importantly because intangible assets are mobile and thus hard to tax. This transformation of the economy demands, according to Wolf, a reexamination of public policy around five challenges: First, frameworks for protection of intellectual property are more ...

## Economy of Intangibles | Bruegel

The service sector is the third of the three economic sectors of the three-sector theory. The others are the secondary sector (approximately the same as manufacturing), and the primary sector (raw materials).. The service sector consists of the production of services instead of end products. Services (also known as "intangible

## The Intangible Economy: How Services Shape Global ...

These are all intangible assets, the fuel of the knowledge economy.

□ Businesses need to have information to deliver what customers want,□ says Stephen Blackman, principal economist at NatWest.

### The knowledge economy: making sense of it

Services are offerings that are primarily based on intangible elements. The global economy is experiencing a long term shift to services from products whereby services are an increasingly large part of GDP. It is common for things that were previously products to be replaced with services over time. The following are common types of services.
