Why NATO Endures examines military alliances and their role in international relations, developing two themes. The first is that the Atlantic Alliance, also known as NATO, has become something very different from virtually all pre-1939 alliances and many contemporary alliances. The members of early alliances frequently feared their allies as much if not more than their enemies, viewing them as temporary accomplices and future rivals. In contrast, NATO members were almost all democracies that encouraged each other to grow stronger. The book's second theme is that NATO, as an alliance of democracies, has developed hidden strengths that have allowed it to endure for roughly 60 years, unlike most other alliances, which often broke apart within a few years. Democracies can and do disagree with one another, but they do not fear each other. They also need the approval of other democracies as they conduct their foreign policies. These traits constitute built-in, self-healing tendencies, which is why NATO endures.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Military Balance is the International Institute for Strategic Studies' annual assessment of the military capabilities and defense economics of 170 countries worldwide. It is a useful resource for those involved in security policy making, analysis and research. The book is a region-by-region analysis of the major military and economic developments affecting defence and security policies, and the trade in weapons and other military equipment. Comprehensive tables detail major military training activities, UN and non-UN deployments, and give data on key equipment holdings and defence expenditure trends over a ten year period. New for 2012: This new edition contains a number of regional policy and defence economics essays including 'Arab Militaries and the Arab Awakening'; 'The War in Afghanistan' as well as an analysis of the top ten defence-budgeting states. The up-to-date regional data entries also include extended details on armies' combat support capabilities, assessments of countries' cyber capacities and - to help readers' understanding of the organization and inventory data contained within the country entries - summaries of individual states' military capabilities. More in-depth tables and graphics have been added: an introductory section detailing aspects of comparative defence activity has been updated to track current defense developments and anticipate future trends; maps depicting the wars in Libya and Afghanistan; conflict in Cote d'Ivoire; the military response to the Japanese Earthquake/Tsunami; and security issues in the
