THE NEW YORK TIMES BESTSELLING MEMOIR OF 21ST-CENTURY AIR COMBAT, BY "ONE OF THE MOST DECORATED PILOTS IN AIR FORCE HISTORY" (NEW YORK POST) 151 combat missions 21 hard kills on surface -to -air missile sites 4 Distinguished Flying Crosses with Valor 1 Purple Heart First into a war zone, flying behind enemy lines to purposely draw fire, the wild weasels are elite fighter squadrons with the most dangerous job in the Air Force One of the greatest aviation memoirs ever written, *Viper Pilot* is an Air Force legend's thrilling eyewitness account of modern air warfare. For twenty years, Lieutenant Colonel Dan Hampton was a leading member of the Wild Weasels, logging 608 combat hours in the world's most iconic fighter jet: the F-16 "Fighting Falcon," or "Viper." He spearheaded the 2003 invasion of Iraq, leading the first flight of fighters over the border en route to strike Baghdad. Earlier, on 9/11, Hampton's father was inside the Pentagon when it was attacked; with his dad's fate unknown, Hampton was scrambled into American skies and given the unprecedented orders to shoot down any unidentified aircraft. *Viper Pilot* is an unforgettable look into the closed world of fighter pilots and modern air combat.

THE INSTANT NEW YORK TIMES BESTSELLER "Sims's vivid portrait of Trump shrewdly balances admiration with misgivings, and his intricate, engrossing accounts of White House vendettas and power plays have a good mix of immersion and perspective. The result is one of the best of the recent flood of Trump tell-alls." —Publishers Weekly The first honest insider's account of the Trump administration. If you hate Trump you need the truth; if you love Trump you need the truth. After standing at Donald Trump's side on Election Night, Cliff Sims joined him in the West Wing as Special Assistant to the President and Director of White House Message Strategy. He soon found himself pulled into the President's inner circle as a confidante, an errand boy, an advisor, a punching bag, and a friend. Sometimes all in the same conversation. As a result, Sims gained unprecedented access to the President, sitting in on private meetings with key Congressional officials, world leaders, and top White House advisors. He saw how Trump handled the challenges of the office, and he learned from Trump himself how he saw the world. For five hundred days, Sims also witnessed first-hand the infighting and leaking, the anger, joy, and recriminations. He had a role in some of the President's biggest successes, and he shared the blame for some of his administration's worst disasters. He gained key, often surprising insights into the players of the Trump West Wing, from Jared Kushner and John Kelly to Steve Bannon and Kellyanne Conway. He even helped Trump craft his enemies list, knowing who was loyal and who was not. And he took notes. Hundreds of pages of notes. In real-time. Sims stood with the President

in the eye of the storm raging around him, and now he tells the story that no one else has written—because no one else could. The story of what it was really like in the West Wing as a member of the President's team. The story of power and palace intrigue, backstabbing and bold victories, as well as painful moral compromises, occasionally with yourself. Team of Vipers tells the full story, as only a true insider could.

A pilot recounts his experiences flying NATO missions in a F-117 stealth fighter over Kosovo in 1999.

This book is based on a journal Jim Schreiner kept during his deployment to the Persian Gulf region for Operations DESERT SHIELD and DESERT STORM. Building upon that record and the recollections of other F-4G Wild Weasel aircrew, the authors show a slice of what life and war were like during that time. The pawns in the game, the ones that had to actually do the fighting and dying, were the hundreds of thousands of men and women who left their homes and families to live for seemingly endless months in the vast, trackless desert while the world stage-play unfolded. To them, the war was deeply personal. At times, the war was scary; at other times, it was funny as hell. Usually, if you survive the former, it turns into the latter.

Inside the cockpit of one of the world's most advanced fighters

Hand-picked, pressure-tested, and full of astronaut gung ho, the young pilots of Eye of the Viper are poised for the toughest assignment of their career: the exhaustive six-month training course at Arizona's Luke Air Force Base, at a cost of \$2 million each. Luke, the world's largest fighter wing, is the only F-16 fighter training base in the United States, and each year it produces one thousand pilots who will fly the F-16 from Korea to Afghanistan to Iraq. But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F-16. Only a few select individuals will have what it takes. Award-winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course--the personalities, the incredible machines, the irreverence, the bravado, and the toughness, not only of the hand-picked students seeking a place in the warrior subculture, but of the veteran pilots who must teach them how to stay alive.

"I am awed by my destructive power. With a small squeeze of the gun trigger under my right index finger, I can rip the turret off a thirty-ton battle tank and throw it 200 feet across the desert, while the rest of the tank burns in an explosion of white-hot, burning phosphorescence. But the cold, morbid reality of it does not exist from where I sit and watch it happen. There's no dramatic chord. No deafening explosion. No screams suddenly stifled. The soundtrack of a pilot's war is mostly silent." The mighty, iconic A-10 Warthog was first thrust into battle in Operation Desert Storm. The men who took it through walls of flak and surface-to-air missiles to help defeat the world's fourth-largest army were as untested as their airplanes, so they relied on personal determination and the amazing A-10 to accomplish their missions, despite the odds. Hogs in the Sand is the gripping journey of one of those pilots as he fights an increasingly terrifying war, all the while attempting to win over a woman and keep control of his internal demons. For anyone who has admired the Warthog, seen it in action, or called upon it to be their salvation, this story will fulfill a desire to virtually strap into the cockpit, while gaining unprecedented understanding of the mind of a modern combat pilot.
